- Each piece of wood is carefully checked at each stage; cutting, milling and finishing, through a unit that corrects any deficiencies.
 - Each piece of flooring is put through an x-ray machine to find hidden cracks and fissures not able to be seen by the naked eye. This reduces splintering and cracking in our products.
 - Our warehouse is kept at a constant temperature and humidity level.
 - There are many steps in place to ensure that any imperfections are found on a piece of wood, and are immediately eliminated from our product.
- Lifetime structural warranty
 - Consistent colour in milling
 - Finish wear warranty for your peace of mind
 - Nano HD Technology. One of the Hardest finishes in the industry
 - Controls bacteria, mildew and mould
Non-yellowing agent for long lasting, true colour
 - No toxic volatile organic compounds
 - State-of-the-art manufacturing process
 - Lacey Act Compliant
