Elevating Spaces with Exceptional Flooring.

Welcome to Impressive Floors

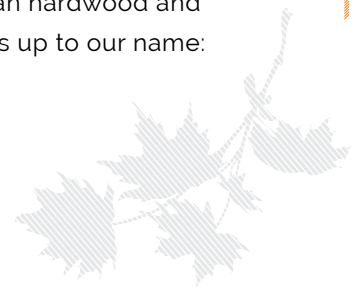

State-of-the-art Production Line and Distribution Warehouse spanning approximately 230,000 square feet ensuring timely and reliable delivery to clients while maintaining an extensive inventory of flooring solutions to meet varying customer demands housing over a million square feet of premium flooring.

Impressive Floors has been a leading flooring solution brand for hardwood, vinyl, and laminate for decades in Canada. We are the industry's foremost innovator and provider of sustainable, premium flooring solutions, setting the standard for excellence in design, quality, and customer experience while contributing the creation of beautiful, enduring spaces.

We are the largest seller of more than 500 flooring products in North America having served more than million Customers.

Impressive Floors delivers a flooring solution that will last for years and match your style. Impressive uses the latest cutting-edge technology, research, and design trends to create floors that are durable, beautiful, and eco-friendly. We are proud to provide our customers with the finest Canadian hardwood and other flooring that lives up to our name: Impressive!

If you can imagine it, we have the expertise
and resources to bring your vision to life.
We will passionately transform your ideas
into reality with precision and creativity.

Impressive Floors, headquartered proudly in Ontario, Canada, has evolved into a prominent Canadian based company. Having originated in Ontario, we've expanded steadily over the past two decades, reaching different provinces across Canada and the United States. Currently, we are actively working towards extending our footprint throughout North America.

Manufactured in Canada since the 1920's, our hardwood production in Ontario is known for top quality planks, serving customers across North America. Based in London, Ontario, our manufacturing plant prioritizes quality.

We specialize in custom colors for all our hardwood flooring in Ontario, Canada, our finishing production lines cater to the unique color preferences of our customers. Our skilled experts precisely match colors and produce flooring that aligns with customer expectations.

Production Line and Distribution Warehouse

With a substantial distribution center and warehouse, we have emerged as one of Canada's most versatile manufacturers and suppliers of solid hardwood, engineered, laminate and vinyl flooring options. Our commitment to quality is evident in our products, consistently meeting the highest industry standards. Our overarching goal is clear: to empower our network of dealers with innovative and trend setting flooring solutions that are not

only cutting edge but also affordable. At Impressive Floors, we are dedicated to shaping the future of flooring with quality, innovation and a commitment to meeting diverse needs of our customers.

Compliment your inspirations with customization

Choosing the right color for your flooring can be important in order to create a certain look and feel in the room. Perhaps there's a theme to blend with the walls, cabinets and furniture or to make a room look more brighter or spacious.

Due to the increasing trend of having the perfect décor, Impressive Floors has invested in a state-of-the-art facility which provides customers with a complete choice for hardwood flooring. Provide us with a sample of the color you wish your flooring to be and we will provide you with a sample for you to see. If you're happy, the order can be placed.

Have the opportunity to select the type of wood species and the width and thickness of the planks. An increasing trend is to have a wider plank to create a rare aesthetic look with an appearance of more square footage. Tell us your dream and we'll help recreate it!

If you don't have the perfect match with what's in stock, you have the option to create the flooring to your style. You have the option to see a sample of your flooring style. Sample orders can be delivered between 7-10 days. Once you are satisfied with your color, your order can be completed within 2-4 weeks.

Want a color match? Bring us your color sample.

Select your product. Wood customization also available.

See your custom sample within 7-10 days approximately.

Once satisfied, orders completed within 2-4 weeks.

Our Hardwood Flooring is Crafted with Canadian Excellence

In the realm of flooring options, our hardwood stands as a testament to both elegance and durability. And when it's proudly labeled as "100 Percent Canadian Made," you can be sure that you're getting the very best in quality, craftsmanship, and sustainability.

The Canadian Difference:

Canada, known for pristine forests and stringent environmental regulations, is a natural hub for top-tier hardwood flooring production. Opt for entirely Canadian-made hardwood to enhance your home and support sustainability and local craftsmanship.

Quality and Durability:

Our hardwood, renowned for durability, is crafted with layers of real wood in Canada. Resilient to high traffic and climate changes, it offers a stable surface, resisting warping and ensuring longevity in various climates.

Natural Beauty:

The enduring popularity of hardwood lies in its natural, timeless beauty. 100 percent Canadian-made engineered hardwood showcases unique grains, colors, and patterns of native wood species like maple, oak, or hickory, adding character and warmth to your space.

Eco-Friendly Focus:

Canadian-made engineered hardwood prioritizes sustainability, sourcing wood responsibly to contribute to environmental preservation.

Versatility:

Engineered hardwood from Canada offers various styles and finishes, suitable for any aesthetic preference, whether sleek and modern or rustic and traditional.

Simply Authentic

SOLID

This 1,400-year-old bristlecone pine on Mount Washington in Nevada's Great Basin National Park is so iconic that its image is stamped on the back of some U.S. quarters. For decades, bristlecone pines, which can survive for up to 5,000 years, were thought to be the planet's oldest living things.

FLOORING WATERFALL DISPLAY RACK

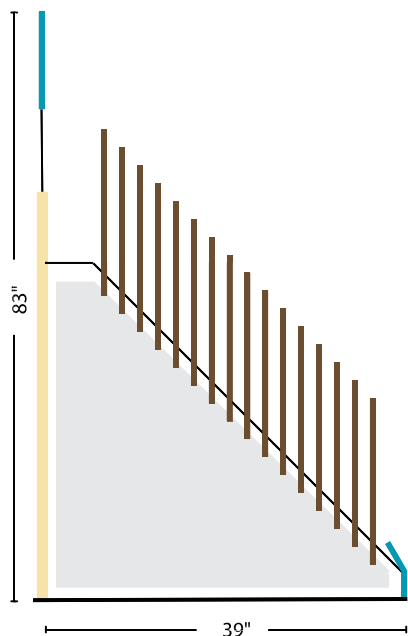

Elevate your flooring showroom with our versatile Waterfall Display Rack! Designed to showcase an extensive range of flooring options, this rack provides a visually appealing and organized solution for displaying your sample boards.

DIMENSIONS:

Height: 83"
Width: 39.5"
Length: 39"

CAPACITY:

Holds up to 32 display sample boards, allowing customers to easily browse through your collection.

Our Waterfall Display Rack not only enhances the visual appeal of your flooring samples but also helps streamline the decision-making process for your customers.

Eco-friendly
and Sustainable.

Leave an impression in every step,
without leaving a mark.

At Impressive floors, we're dedicated to more than just selling floors; we're committed to offering sustainable options that align with eco-friendly values. With today's focus on environmental issues, opting for sustainable flooring isn't just a passing trend—it's a responsible decision for the future.

Our flooring has limited VOC and has a UV finish with aluminum oxide enhanced urethane which is great for those that are chemically sensitive and for indoor air quality.

Our hardwood flooring collection comprises FSC certified sustainable American hardwood from select grade timber. The core and bottom come from either recycled, reclaimed or salvaged sources. Some of our products are thick enough offering the potential for a couple of sanding's.

Most of our flooring qualifies for Floor Score certification. We are also member of the National Wood Flooring Association.

Ensuring that our hardwood flooring is sourced from forests that are managed, monitored and protected in an ethical and sustainable way is important to us.
